

PRODUCT DATA SHEET

K2 ROTON PRO

NEW

K2 ROTON PRO is an excellent wheel cleaner with “bleeding wheel” effect. Outstanding consistency of gel spectacularly removes dirt from aluminum, chrome plated and painted wheels. Thick layer of gel easily eliminates sludge from brake pads and road dirt. Red “bleeding effect” proves chemical reaction with dirt, showing cleaning efficiency and allowing to control cleaning process. It has got neutral pH with characteristic cherry scent and can be also used as deironizer for cleaning painted elements from metallic contaminants.

DIRECTIONS

Before use the rim has to be cold in touch. Apply K2 ROTON liberally to the surface and allow the cleaner work for several minutes. The product has no colour from begin, then it becomes red while reacting with dirt, which means accession to flush (in particular cases the product may temporary become green colour). Remove stubborn dirt using a sponge or rim brush if required. Rinse rim and tire with water stream. Do not allow the product to dry on the surface.

TECHNICAL DATA

Custom code: 34022020
Index: D1001
Capacity: 1L
Quantity per box: 6pcs
Quantity on the pallet: 480pcs
EAN-code: 5906534017109

Index: D1005
Capacity: 5L
Quantity per box: 1pcs
Quantity on the pallet: 90pcs
EAN-code: 5906534017116

APPLICATION

Cleaning dirt from aluminum, chrome plated and painted wheels.
